

Advanced version of Axiohm's most famous 80/82.5mm thermal printer mechanisms !

Montrouge, December 26, 2005 – AXIOHM, specialist in thermal printing solutions, has just released an **Advanced version of its most famous 80/82.5mm thermal printer mechanisms, dedicated to POS, ATMs, Gaming/Lottery applications.**

As part of its ongoing commitment to outstanding performance, increased printing speed, enhanced printing quality and overall customer satisfaction, Axiohm has implemented an **Advanced** version of the XA/XB Series and MHTP/MCTP Series that now **prints up to 180 mm/second.**

The MHTP/MCTP Series is one of Axiohm's top-of-the-line mechanisms, offering fast and enhanced performance. The versatility of the MHTP/MCTP Series offers a mechanism answering all your needs: a large selection of paper widths (80/82.5/2*38 mm) and paper paths (straight, Clamshell™), both 12V & 24V versions, an auto-cutter or tear bar version, and a printing **speed of up to 180 mm/sec.** for the MHTP/MCTP *Advanced*. Moreover, this printing speed of 180 mm/sec. ranks the MHTP/MCTP *Advanced* among the fastest mechanisms in its category.

The XA/XB Series offers a wide selection of features to answer all your needs and meet the specific requirements of each market application. These features include Axiohm's ceramic, self-sharpening-blade cutter that minimizes paper jams, its exceptional life-expectancy of 1.5 million cuts for the cutter and of 150 km for the mechanical parts. All of these outstanding features and **XA/XB Advanced printing speed of up to 180 mm/sec** undeniably make the XA/XB Series one of the most reliable mechanisms on the market.
